

## Special Modification Request “SMR Opportunity Of The Week” How to Extend the EH20 Enclosure Mount?

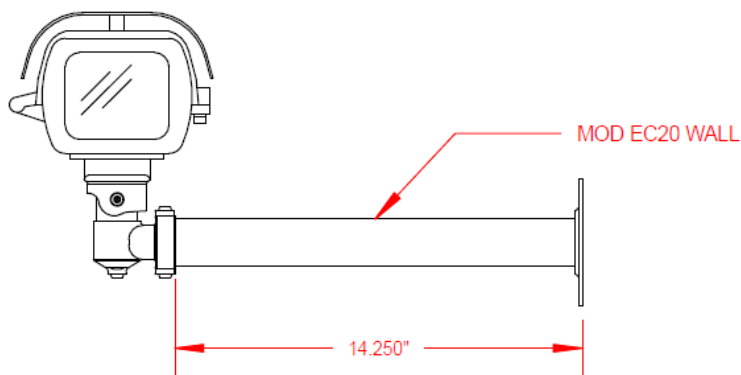

David Marin  
SMR Manager

Field Opportunity  
Urgent request straight from the ladder.

Does Pelco have a longer wall mount for the EH20 enclosure?  
The eve of this building is deeper than the standard EH20 mount.

The answer is an SMR designed wall mount that is extended 14" (36 cm).  
The extended arm was designed, and the first unit produced within three hours.
