

Special Modification Request “SMR Of The Week” Pendant Mount Conduit Junction Boxes

[David Marin](#), Sr. Manager- SMRs

Junction Boxes For Any Pendant Style Camera

There are two versions of the pendant mount conduit junction boxes.

The first version is a low profile fixed position.

This mount is great for surface mounting any pendant style camera that requires an environmental conduit junction box for electrical connections.

This product is an alternative to the MRCA and BB5-PCA-xx

The second version is a junction box that can swivel.

This mount is great for surface mounting any pendant style camera that requires an environmental conduit junction and the ability to swivel the camera into a vertical position.

For example, this product can be used in a parking garage with inclined ceilings.

The conduit junction boxes include five threaded conduit openings. Each version has color options to match all of our current cameras.

| Part Number | Feature | Color |
|-----------------|-----------------|----------------------|
| SM-BB5PCA-3991 | Fixed Position | Pelco Light Gray |
| SM-BB7PCA-3991 | Fixed Position | Pelco White RAL 9003 |
| SM-BB5PCAS-3398 | Swivel Position | Pelco Light Gray |
| SM-BB7PCAS-3398 | Swivel Position | Pelco White RAL 9003 |
